Meals and Beverages

Expo 2019 others complimentary all day beverages, buffet lunch and "evening social" (includes beer, wine and soft drinks) to all delegates.

Expo 2019 also others all day beverages, buffet lunch and "evening social" (includes beer, wine and soft drinks) to all delegates. Industries represented – oil & gas, construction, rail, infrastructure, defense, nuclear and government to name a few.

Quiet Zones

Quiet Zones offers you peaceful areas with comfortable seating. Please keep your phones "switched off" or in "silent mode" to ensure you don't disturb others. You can also access/view all the presentations from Quiet Zones if you wish to do so.

Please note: Considering the size of the event, Expo is spread across entire stadium so please make yourself fully aware of all the zones and plan your sessions accordingly. There is plenty of seating capacity (circa 250) in each zone to ensure you don't miss any presentation if you get late due to travelling between various zones.

Social

Join us in the evening for a complimentary drink at our networking social.

To ensure delegates have least problems with navigation, there is significant signage at venue and in addition to that we have our crew/stewards who can help you move across the stadium effciently.

And Relax!

After an intense day of learning come and join organisers, delegates and leading Project Controls Expo Partners for some uninterrupted networking, re-acquaint yourself with old friends and make new contacts whilst enjoying a few drinks.

Five parallel tracks showcasing 35 educational presentations and case studies in addition to Partner Showcase and Job Fair

Awards Dinner & Celebration

In 2019 our EXPO dinner will take place on the evening before EXPO on **12th November from 1800-2230.** This will incorporate our first Project Controls Awards ceremony in the Woolwich suite at Emirates Arsenal. This is an exciting new feature of EXPO for 2019 which will also have staged event and entertainment.

@ Woolwich Suite

Partner Showcase & Job Fair

Up to 42 Partners showcasing a range of cutting edge products, technologies and services for Project Controls. We are delivering new partners in addition to our long standing partners who support us each year. We have several employers presenting exciting global Project Controls opportunities.

@ Highbury Suite

Masterclass Zone

This is a fantastic opportunity to come along to the Masterclass Zone to study and discuss the theory and practice of Project Controls. Our leading Project Controls professionals, from around the world, with extensive experience, will provide educational presentations to build your knowledge.

@ Royal Oak Suite

Case Studies Zone

"Real World" problems and issues are what brings the application of Project Controls alive. This case study zone enables you to discuss the application of Project Controls in addressing the problems with top industry speakers with extensive global experience. An opportunity to learn and share knowledge with others.

@ Dial Square Suite

Technology Zone

Presenting seven in depth sessions of 45 minutes each where our technology partners will demonstrate the functionality and capabilities of their innovative products. The partners will provide industry case studies and some will be represented by their clients from industry.

@ Champions Suite

Megaprojects Zone

Megaprojects are projects with budgets over >£1B. These temporary endeavours are characterized by large investment commitment, vast complexity and have the potential to make a long-lasting impact on the economy, environment and society. You will discover how to ensure governance over these initiatives and protect the investments.

@ Woolwich Suite

Social Projects Zone

In this zone we are focusing on social projects that impact the socio-economic environment surrounding it. We welcome submissions from government bodies and their projects with a spending review period of 3-4 years. The aim for this area is to share and show the positive impacts they can have on society and what we have learnt from previous ones to ensure success in the future.
@ M Club

SME Panel

Meet our Subject Matter Experts (SME) in Program Management, Earned Value, Cost Engineering, Risk and Forensics for 1:1 sessions of 30 min each for discussing your specific cases/queries in details. Delegates to register at event reception desk on arrival.

@ Emirates Lounge

AACE International (Association for the Advancement of Cost Engineering) has 8,500 members in 100 countries, and has been serving the total cost management community since 1956. We are committed to the constructive exchange of ideas between members, development of technical guidance and quality education and recognition of subject matter experts. Our members work in a variety of disciplines and across all industries.

Members get free access to digital editions of AACE's TCM Framework® (Total Cost Management Framework®).

Total Cost Management Framework® : An Integrated Approach to Portfolio, Program, and Process Management, 2nd Edition and the Recommended Practices (RPs) which are a series of documents that contain valuable reference information that has been subject to a rigorous review process and recommended for use by AACE's Technical Board. Our members read the best in technical articles published in Cost Engineering journal or Source magazine. Our members also have free access to search over 5,500 of technical articles in AACE's Virtual Library and they can also network with other professionals at the Annual Meeting, at local section events, or virtually within the AACE Communities.

For over 40 years AACE has been certifying individuals. AACE offers the following certifications: Certified Cost Professional (CCP), Certified Cost Technician (CCT), Certified Estimating Professional (CEP), Certified Forensic Claims Consultant (CFCC), Earned Value Professional (EVP), Decision and Risk Management Professional (DRMP), Certified Scheduling Technician (CST) and Planning & Scheduling Professional (PSP). AACE's CCP, CCT, CEP, EVP, and PSP certifications are independently accredited by the Council of Engineering and Scientific Specialty Boards.

Website : https://www.causeway.com/

The Association of Cost Engineers was formed in 1960, in London, as the British Group of the American Association of Cost Engineers. In 1962 an independent British Association of Cost Engineers was formally and legally incorporated having similar aims and objectives to AACE. Since then ACostE has developed into an organisation which provides a range of institutional services for its members. It promotes the technical study and development of cost engineering with the objective of furthering the application of scientific principles and techniques to problems of Project and Produce Control, Cost Estimating, Scheduling, Planning, Risk Analysis, Profitability, Investment Appraisal and allied topics.

Objectives of ACostE

- To promote Cost Engineering as a recognised discipline of engineering technology
- To provide means of developing, exchanging and disseminating standards, methods and data relating to Cost Engineering & Project Controls
- To provide recognised standards of attainment in the practise of Cost Engineering & Project Controls
- To set up and maintain proper standards of professional conduct and ethics of its members in the practice of Cost Engineering
- To hold, promote or support meetings and distribute literature and information in pursuit of its objectives
- To co-operate with other bodies in the UK and elsewhere having objects cognate with those of the Association and to liaise with other similar bodies for the purpose of the reciprocal exchange of information
- To encourage social activities among members

Website : http://www.icoste.org/

The Major Projects Association is a membership association for organisations engaged in the delivery and the development of major projects, programmes and portfolios. Our purpose is to improve the initiation and delivery of major projects through the interaction of members from all sectors in sharing experience, knowledge and ideas.

Website: http://www.majorprojects.org/

- PMI UK is a professional project management membership organisation in the UK. PMI UK has over 3,500 members and was founded in 1995. It welcomes members from all facets of projects and from all industries.

- PMI UK is active in promoting project management to industry and government organisations.

- PMI is one of the world's largest not-for-profit membership associations for the project management profession. Its professional resources and research empower more than 700,000 members, credential holders and volunteers in nearly every country in the world to enhance their careers, improve their organisations' success and further mature the professional.

- PMI's worldwide advocacy for project management is reinforced by its globally recognized standards and certification program; extensive academic and market research programs; chapters and communities of practice and professional development opportunities.

ARES PRISM is an enterprise project controls software that manages the complete project lifecycle delivering dependable forecasts, cost control, and performance measurement. Organizations around the world rely on PRISM to manage projects, programs and portfolios of growing size and complexity in a variety of industries; including infrastructure, engineering & construction, oil & gas, mining, utilities and aerospace. PRISM is a scalable, robust and intuitive system that harnesses industry best practices and integrates all aspects of the project, including cost and schedule, change management, estimating, earned value, contracts & procurement, and field progressing. Business intelligence reports and dashboards provide organizations with the transparency required to pinpoint potential problems and make strategic decisions. As an out-of-the-box solution, PRISM delivers benefits quickly with a fast implementation and knowledgeable team of experts dedicated to client success. Achieve superior project management with increased visibility and control, boosted accuracy and efficiency, and improved financial performance.

At BAE Systems, we help our customers to stay a step ahead when protecting people and national security, critical infrastructure and vital information. We provide some of the world's most advanced, technology-led defence, aero-space and security solutions and employ a skilled workforce of more than 83,000 people in more than 40 countries.

From state of the art cyber threat detection to flight control systems that enable pilots to make better decisions, we never stop innovating to ensure that our customers maintain their advantage. This is a long-term commitment involving significant investments in skills. We also work closely with local partners to support economic development through the transfer of knowledge, skills and technology.

Website: https://www.baesystems.com/en-uk/home

Cleopatra Enterprise offers an integrated Project Cost Management solution through the entire project life cycle by including Cost Estimating, Scheduling, Cost Management, and Benchmarking in one system.

Using the state of the art technology, Cleopatra serves the process industry and is used by Owners, Contractors and EPC firms.

Over 20 years, Cleopatra has enabled more than 500 industry-leading companies in 75 countries to control large technical projects, improve their project performance and stay ahead of the competition.

Part of the Ministry of Defence, but with bespoke trading entity status , Defence Equipment & Support (DE&S) is responsible for the procurement and ongoing support of equipment to Her Majestyâ   s armed forces. With over 12,000 employees, working across 150 locations, we manage a huge range of complex acquisition and support programmes. From delivering aircraft carriers and fighter jets, to armoured vehicles and field kitchens, itâ   s our job to ensure the UKâ   s military have everything they need to do theirs.

Website: https://des.mod.uk/

Nodes & Links improves the predictability of project outcomes by adjusting plans to account for the effects of complexity.

Our intelligent platform supports businesses throughout the project life-cycle by quantifying complexity and by allowing managers to control its effects. We offer real-time intelligence to support the adjustment of schedules and estimates, the evaluation of team and supplier structures, and the quantification of risk at project and enterprise levels. By taming complexity projects are set up for success, delivery is vastly more predictable and enterprise profits are protected.

Our technology is backed by a team that is world-leading in the fields of Complexity Science and Project Risk Management. By working with global organisations across the infrastructure, defence, aerospace and energy sectors we have been able to put the projects industry at the forefront of the complexity field. Now, with the backing of deep-tech venture capital, we are taking the lead.

We are creating a future where predictability of delivery is the norm, where businesses can learn automatically from their projects, and where the force of complexity is used for good. If you would like to be involved in this, please, get in touch.

Website: https://www.nodeslinks.com/

nPlan uses Artificial Intelligence to understand how projects are executed and uses that knowledge to provide schedule certainty, by highlighting project and portfolio risk, and suggesting optimal solution paths.

nPlan's patent pending series of complex algorithms understand project schedules and evolve to emulate the brain with scale and accuracy. The algorithms generate an advanced contextual understanding of the performance of any project, achieved by analysing previous project plans and building relationships between them.

nPlan has grown incredibly quickly, scaling from an ambitious technical concept to partnerships with several of the worlds largest EPCs and GCs, which has resulted in the largest dataset of construction schedules in the world. nPlan's system has been deployed on High Speed 2, the largest and most complex construction project the UK has done since the Victorian era.

The primary function of the algorithms is to predict the duration for scheduled activities. In addition, the system can perform machine-led reference class benchmarking, taking into account task and project context in a way that had not previously been possible.

By leveraging data to make informed project planning decisions, we are able to improve cost certainty, create a more predictable project and reduce slippage. This culminates in a higher quality project execution from tender right through to completion.

Website : https://nplan.io/

Planisware is a leading project portfolio software provider specialising in New Product Development (NPD) - helping to strengthen and shape sound business strategies through analytics, road-maps, budgets, and more. Today, more than 33% of the top 100 R&D spenders worldwide utilise Planisware solutions at a corporate level to manage their projects, resources, and portfolios.

With acclaimed configurability that brings together teams from across the enterprise and across different locations, Planisware offers the opportunity to work collaboratively from a single source of truth to help get innovation to market.

Website: https://www.planisware.com/

We are an exclusive, niche and rapidly-growing Project Controls consultancy offering innovation, advice, implementation, technical and training support to our clients around the world. Through our consulting services, we facilitate the integrated global use of Project Controls technology, methods and practices in every sector and for every customer. Put simply, we are â   one stop shop for all Project Controls needsâ

As well as our consulting and advisory role, Projcon contributes to three interlinked initiatives: Project Controls Online (PCO) : Projcon is principle sponsor of PCO which acts as central hub and knowledge repository, open to all Project Controls professionals, providers and consumers. It is here that members from over 190 countries join to share expertise, network, find new career opportunities, and access industry-leading tools and guides.

Project Controls Institute (PCI) - : It is where we train the Project Controls leaders of tomorrow and support a global workforce of Project Controls professionals through every stage of their career. Via our blended-learning platform and multi-accreditation system, students can gain global qualifications, certification and real-world training.

Project Controls Expo (PCE) - Projcon is key supporter to PCE which brings our industry together for the worldâ   s largest Project Controls event: a full day showcase, workshop and social experience where delegates can learn, network, and gain access to some of Project Controlsâ   leading innovators, partners and experts.

Website: https://projcon-group.com/

PCI aims to offers blended learning program covering full spectrum of Project of Project Controls comprising all it base elements (Planning & Scheduling, Cost Engineering and Estimating, Change Management, Risk Management, Delay Claims and Forensic Schedule along with Contract Management) that leads to global accreditation. PCI's USP is its unique content, delivery (blended approach) and Framework which allows candidates to map their learning/education to global certifications (eg., AACEi, APM, ECITB and PMI). The Programme participants are expected to achieve an improved level of competency through self-learning along with Handbook available to all the delegates.

Make contracts easy with CEMARÂ®, the cloud-based contract management system for NECÂ® and other forms. Modern contracts are complex and expensive to administer. CEMAR combines industry-leading knowledge and expertise to make sophisticated contract management simple.

CEMAR is a secure, intuitive, web-based system which brings compliance, consistency, governance and business intelligence to the management of Â£75bn of works and services.

Website: https://cemar.co.uk/

Bringing together multi-billion-pound programme management experience, project management software integration skill and IT infrastructure capabilities, Critigen's EPPM consultants help your team develop efficient, integrated and reliable workflows and systems to ensure your projectâ s success.

- Our experienced project and programme management system consultants focus on success by providing solutions that drive predictable project results and remove uncertainty.
- Programme control IT consultancy ensures you have the most stable, secure and performant environment for your project controls applications; whether this is on-premise, on a cloud, externally hosted or a hybrid of all.
- Being vendor agnostic and working with all the major products in the Project Controls space means we identify the best technologies, vendors and solutions to meets your specific needs.
- We work with owners, clients, consultancies and contractors and bring them together onto common platforms to collaborate and create efficiencies.
- Our bespoke training packages are customised to your environment, processes and ways of working to ensure best adopt Critigenâ s innovative solutions and track record of successful delivery underpins some of the largest and most complex programmes in the UK. Come and speak to us about how we could help you

Website: http://www.critigen.com/

Elecosoft provides a range of software solutions focusing on the architectural, engineering, construction and property management industries which help users with challenges ranging from interiors visualisation through architectural design and stair engineering, to project and site management and cost estimation, and more.

The company's core application, Powerproject, is a powerful, project, portfolio and resource management solution designed to support the way construction planners work. Since it launched in 1988, the software has evolved with users' input so that it specifically meets the needs of those operating across the whole spectrum of the construction sector including commercial and residential builds, infrastructure, pre-build, modular and fit-out.

Used by large and small businesses alike, it is the preferred software of construction professionals throughout the world for managing projects as it combines easy to use drag and drop functionality with powerful feature rich capability. Powerproject has been used on construction projects around the world, including The Shard in London, Warsaw Metro in Poland and the Bosphorous Bridge that links Europe to Asia.

Available in stand-alone, enterprise and cloud versions, Powerproject includes an integrated BIM module which brings 4D planning within affordable reach by combining 3D planning and scheduling in one application.

Training Today, The Engineers of The Future

The Engineering Construction Industry Training Board (ECITB) is the statutory organisation, national training provider and awarding body with responsibility for the training and development of the UKÃ¢ s engineering construction workforce. Acting on behalf of the industry, the ECITB works closely with Government and employers to attract, develop and qualify engineering construction personnel in hundreds of skills and disciplines. We provide businesses with the means to train the engineers of today and tomorrow to the highest standards, via our extensive, regionally-based network of almost 200 specialist ECITB- accredited course providers.

Website: https://www.ecitb.org.uk/

InEight combines proven technology with a unified vision, delivering actionable insights and project certainty to more than 300,000 active users in more than 750 companies. Built on a history of construction and engineering excellence, InEight solutions help companies visualise, estimate, manage, control and connect all aspects of capital and maintenance projects. With configurable, integrated and field-tested solutions, InEight customers have the visibility and predictability required for on-budget and on-time project completion. Based in Scottsdale, Arizona, U.S., InEight, an ISO 27001-registered company, is a subsidiary of Kiewit Corporation (Kiewit). Kiewit, through its subsidiaries, is one of North America's largest and most respected construction and engineering organisations.

Whether it is keeping management informed, or connecting your teams, Scenario will manage your information and processes across your projects. Scenario acts as a common platform connecting your internal Team members with the wide range of external parties working together on your projects.

Scenario is proven software, with over 20 years of experience on large to mega Projects. Our software is designed for the Enterprise, a Portfolio, or a single Project. Our software and services are targeted at Project Delivery, Mining, Energy, Infrastructure and Property Development covering Information Management, Project Delivery and your Workforce.

We bring structure and control to your information, commercial and compliance processes. We provide control, visibility and confidence across your projects from concept to handover, and full operations. We recognise our real value is to work with you, grow and adapt as your business and industry changes, and collaborate with you in both a timely and cost effective manner. We look to engage in proactive relationships, not reactive â   and work best with Clients to improve your bottom line performance

Sponsorship Level - Bronze Partner

Schutte Consulting (#SCLGlobal est. 2014) is a UK-HQ'd legal and training consultancy, which advises on infrastructure projects and the built environment. We put law into its practical and purposive context so that contracts promote and enable delivery, principally through considered strategy and exemplary project management and project controls (PPM, P3M and PMO). We pride ourselves on offering a whole-life project support service, from the kernel of an idea through to handover and legacy. We have particular experience in facilitating contract collaboration workshops for partnering /alliancing contracts and long-term frameworks.

We collaborate closely with several global PMI Chapters and the UK's APM. Our Principal chairs the UK User Group of a global PPM software developer, and is a regular conference speaker, media commentator and probono contributor to industry initiatives driving excellence in project delivery and the use of technology

Detailed Agenda

Opening Remarks :

TBC

TBC

Keynote : TBC

Simon Bollom graduated from Southampton University in 1981 with an honours degree in mechanical engineering.He served in the RAF as an engineering officer for 35 years and his last appointment was as Chief of Materiel (Air) in Defence Equipment and Support (DE&S)Â and RAF Chief Engineer on the Air Force Board.During his service career he served in a variety of operational and staff appointments, with the last 15 years focussed on acquisition and support delivery.

He retired from the RAF in April 2016 and having enjoyed a short career break interspersed with some consulting, he returned to the DE&S as Chief of Materiel (Ships) in April 2017 responsible for acquisition and support of surface ships for the Royal Navy.He was appointed as Chief Executive Officer DE&S in May 2018.

Appointed as Companion of the Most Honourable Order of the Bath in 2011, he became a Fellow of the Royal Academy of Engineering in 2012 and was made a Knight Command in Her Majesty the Queenâ s 2016 New Yearâ s Honours List.

He is married to Kathy with 2 grown up children and lives in Bath.A keen sportsman and Bath Rugby supporter, he is also an avid cricket follower, has represented the RAF and Combined Services at hockey and keeps fit through running and cycling.

About us

Project Controls Expo is organised by ProjectControlsOnline.com (PCO) also popularly referred to as "Global Home of Project Controls".

PCO is the largest Project Controls central repository and knowledge base with presence in all 7 continents and over 150 countries. We are first choice of all Project Controls stakeholders (providers and consumers) as a venue for informational exchange across all industries that apply Project Controls principles.

Visit PCO to explore its Premium features such as Video Training Modules and Premium Library along with many other services i.e., White Papers and Presentations, Glossary, Conference Presentations, Free Library, Paperback Literature, Practitioners Guide, Blogs, Tools and JobZone, for the benefit of Project Controls Community.

PCO is managed by a global network of Senior Project Controls professionals who come from a variety of different industries. PCO leadership consists of "Core Team" together with a "Board of Advisors" from around the world. Under this leadership team, PCO boasts an impressive band of subject experts whose expertise spans the full spectrum of Project Controls. We are independent and not biased towards any technology, process, software or company.

PCO is a non-profit organisation and the revenue generated from its features is invested into its maintenance and further enhancement. All the team members are volunteers and working towards achieving our following vision

- To be the first choice of all Project Controls stakeholders -- providers and consumers

- To promote an universal understanding of Project Controls value and processes

- To develop a central repository of data on Project Controls

- To generate awareness and offer expert guidance on Project Controls tools & practices.

- To build the first exclusive network of genuine Project Controls practitioners and their customers.

Hope you enjoy your meet at Expo and we always look forward to your suggestions to help us improve.

Thanks,

PCO & Expo Team
